

Dear Sedgwick Member,

Come, experience, and enjoy the new Sedgwick Farm Tennis Club (SFTC). SFTC and Golds Gym have paired up to give Sedgwick some much needed updating and refurbishing! Some highlights of the changes include major landscaping around the clubhouse and grounds, including addition of new patio furniture (patio tables, chairs, umbrellas as well as numerous new planters); outside painting of the clubhouse; gutting and repainting of the ProShop—all combining to give our facility a more pleasing, modern look.

We have undertaken substantial renovations in the locker rooms. In the ladies locker room we have worked on the tiling as well as undertaking a new paint job. In the men's locker room we have installed new carpet, full length mirror, new door, as well as steam cleaning the tiles and adding new shower heads, hooks, and soap dispensers.

Also we now have onsite washer and dryer service, as well as a high definition digital TV in the lounge area, to watch the major tennis tournaments in the comfort of our facility.

We encourage you to come to our facility to see at first hand the magnitude of our changes! The weather is changing and it is time to look forward to playing on the red clay!!!

Sincerely,

Ron Ferguson,
President
